

LabelMark™ 6 Label Design Software

BradyID.com/labelmark

Reduce Label Creation Time for Improved Productivity.

New LabelMark™ 6 software takes the hassle out of designing and printing labels. With an improved user interface and app-based navigation combined with Brady's proven interactive label creation and single-click importing and serialization, you have high performance label printing that has never been easier.

Label Printing with an improved user interface

- Easy-to-use apps for creating wire harness, control panel and laboratory labels
- Insert and edit AutoCAD layers, area of interests or entire files
- Automatically repeat text on multiple lines of a label with LabelMark wire marker tool
- Multi-label view for true representation of label formats
- Adjust each individual label's length in your print file

Data Management

- Quickly import data onto a label from an external data source
- One-step serialization of data
- "Check error" function to locate any import errors in prior to printing

Label Printing

- Assign label materials to a specific printer for dedicated printing
- Manage multiple files in a single job by grouping wire markers, push buttons, rating plates, and terminal block labels into one job file
- Bi-directional communication with the IP, BMP®41, BMP®51, BMP®53, BMP®71 and BBP®33 printer series for automatic label format loading

LabelMark™ 6 Software – The Latest in Fast and Easy Label Creation

Simplify Label Making for the Following Applications

- Breakerbox Identification
- Wires and cables
- Terminal blocks
- Control panels and components
- Rating plates
- Voice and data equipment
- TIA/EIA/ANSI 606B identification schemes
- Conduit and voltage hazards
- Cable trays
- Laboratory equipment
- Much more!

Make the Most of Your LabelMark 6 Software with Reliable Printers
